M. Tech.

- Heat Power Engineering
- Electrical Power Systems
- Structural & Construction Engineering
- Computer Science Engineering
- Electronics and Telecommunications Engineering

With BIT, you will achieve your DREAMS !!

Fees / Scholarships

Special Talent Scholarship

Students may have any score but must have a special talent to be eligible to receive this scholarship, which provides financial assistance upto 75% of the tuition fees. We are looking for students with very creative and innovative mindsets who have great ideas and passion for developing products/services for the local/regional community. These students will have to convince the management committee that they have extraordinary talent and thinking to make an impact on our society.

Scholarships for top CET performers,
extraordinary talents and girls

Merit Scholarships :
First ten applicants with top CET scores
will receive scholarship towards tuition fees.

Govt. Scholarship available for eligible
SC , ST, VJNT, OBC, SBC candidates

From The Director's Desk

Sanjay Wasade

MBA, New York University
B.E (Comp.Sci), B.I.T.S, Pilani

Welcome to the World of Engineering.

Many of you may wonder, "what exactly is an engineer?" Engineers are creators, designers, innovators and problem-solvers.

Engineers play a role in the production and development of almost everything we use in our daily lives - from the CDs we play in our stereos to the chips that power our computers. Engineers helped man land on the moon and assist in the explorations of our oceans. Engineers design and build bridges and roads and set up the transportation systems that make

them work. They also develop new alternative fuels and means of harnessing energy.

Engineering is not just about facts and numbers. Engineering is about using your intelligence, education, training and capabilities to improve the quality of life for the people in our local community, our country and on our planet.

At BIT, in our **MBA programme** we develop people and ideas that transform the challenges of the 21st century into opportunities to create value for business and society.

We believe that business can be, and needs to be, one of the strongest forces for value creation in an improved world. To develop people and ideas that can improve the world in the 21st century, BIT needs to not only impart knowledge but change

mindsets.

We want our students to realize the enormous business opportunities in India in the globalized world and explore new possibilities for what business can achieve.

The Ballarpur Institute of Technology (BIT) offers you an opportunity for a superior education in the engineering & management fields. BIT is managed by a great team of successful technocrats who have gained their engineering & MBA degrees from reputed colleges and have worked on the forefront of contemporary technological developments. We will now work with you to put you on the ladder which takes you right to your dreams.

We at BIT appreciate your interest, and hope you will visit the campus in the near future.

Hear it from our Brand Ambassadors...

Risav Raj
B.E., Mining
First University Topper
Joy Mining Services, Kolkata

"The experienced faculty, training and placement department have made it possible for me to reached the highest echelons."

Vidnyan Siddamshetty
B.E. Computer Science
Business Intelligence Developer at Workfront
UTAH, USA

"Today because of BIT I am in the right company and scaling new heights as a computer professional."

Yogita Madan
B.E. Civil
First University Topper

"BIT is a suitable place where students can get all the possible support from highly educated and efficient staff."

Sumali Gadge
Diploma in Food Technology
First State Topper

"I am thankful to all the staff of diploma in food technology as this course helped me in learning aspects on food processing, quality control, inspection & regulations."

MCA Toppers

One Decision Can Change Your Life.

MBA, MCA & M.Tech.

MBA programme at BIT is focused on developing people and ideas that transform the challenges of the 21st century into opportunities to create value for business and society. We provide the students with real life experiences working with companies on projects and summer internships. BIT strongly advocates use of case studies to enhance the understanding of business issues and the approach necessary to emerge successful.

Dinesh Misar
University First Topper - MCA

Programme Highlights

- Friendly Faculty with strong credentials
Case study based approach
- Regular guest lectures workshops and seminars conducted by experts
- Special personality development and communication session every semester.
- Special scholarship for B.E. and first class students

MCA programme at BIT enables students to learn latest technology and stay up-to-date with the developments in the IT industry. Students are encouraged to develop software applications to enhance hands-on knowledge. The MCA department works closely with the computer science department on the campus to conduct various technical seminars where in top industry experts work with the students.

M. Tech programme at BIT is focused on providing comprehensive knowledge through involvement of senior experienced faculty. The programme is designed to enable students to complete the degree by fulfilling all requirements in a flexible setting. All the labs are well equipped and students are also encourage to work with the industries to gain valuable insights.

Entrepreneurship Skill Development

100% Placement Assistance

Summer Internship Programme (SIP)

About the Principal

Dr. Rajni Kant Principal

Ph.D, IIT (ISM), Dhanbad
M.Tech. (Industrial Engineering)
B.E. (Mining Engineering)

- Published research papers in National & International Journals.
- Lifetime membership of IIIE & Associate member of IEI
- One patent registered and published
- Manager's Second Class Certificate of Competency to manage a metalliferous mine under (MMR 1961)
- 25+ years of teaching & industrial experience.

Our Vision & Mission

Investing In Your Future

Our vision is to become the top destination for quality technical and management education in Central India with diverse student population from all parts of the country and abroad.

To bring this vision to reality, we will be committed to:

Assembling a dynamic body of faculty who exemplify excellence and innovation in the pursuit and delivery of knowledge.

Graduating students who are well educated in technical knowledge, with solid communication and teamwork skills, who can compete successfully in the global business world and contribute significantly to the national base of engineering & management education.

Partnering with academic, industrial and government entities in ways that will result in the maximum positive economic impact locally, regionally, nationally and globally.

Mission

To prepare competent need based human resource and responsible citizens for engineering profession through dissemination of knowledge and development of technical skills and create an environment that fosters the involvement and commitment of all stakeholders for continuous improvement in performance and quality.

Academic Infrastructure and Resources

- Modern Design and Construction
- Well Equipped Lab
- Separate Project room for students
- Air Cooled computer labs
- Boys / Girls Hostel
- Library with huge selection of digital content

State of the art
Infrastructure
and
Facilities

- 5 Acre Entrepreneur Park to host
- Small businesses and live projects
- Bus Transportation
- 24 hour professional Security setup

Location Map

BIT Campus, Bamni

BALLARPUR is located in Central India, in Chandrapur district of Maharashtra. It is about 165 km from Nagpur and is well-connected railway junction having direct trains from all major cities of the country. The region has over Rs 25,000 crores of investment in various industries like Steel, Power, Cement, Paper and Ferro Industries. Some of the big business names with significant investments in the region include Thapar, Ambuja, Birla, Tata, NTPC, Lloyd and several others.

Work with Experts

BIT is a Technical Campus with multiple Graduate & Post Graduate programmes. To impart high quality & practical education BIT has launched IIS " **International Innovator Interaction Series** ". World renowned personalities work with BITians over number of days to provide knowledge and inspiration.

Mr. Siva Subramanian
Scientist, ISRO
Worked with NASA Team, USA

Associated with leading
scientists like
Dr Vikram a Sarabhai,
Dr Abdul Kalam,
Dr Kasthurirangan
in the field of R & D
aerospace programme.

Mr. S. K. Mandelia
Ex. Advisor,
Manikgarh Cement

Mr. Rajesh Sharma
Global Learning and Development,
Suzlon Energy, Pune

Solar Lab at BIT

Solar PV Generation is the only future alternative in power sector giving ECO - friendly & renewal power. Our Govt. is considering this seriously and have plan for 20000MW.

The Dept. of Electrical Engineering, BIT, promises to be a part of this plan by installing solar PV system in the college premises. We believe this will provide great exposure to our student.

Mr. Sudesh Saoji
Founder QUOGENT
California, USA

Mr. Sudesh Saoji is a software engineering executive and specialist in business process management with 20+ years leading software development, technical services and software architecture. Sudesh holds a Master of Engineering from UC Santa Barbara and an MBA in Entrepreneurship and Marketing from Santa Clara University.
