Ballarpur Institute of Technology, Ballarpur

Mouza- Bamni,Tah. Ballarpur , Dist. Chandrapur-442401 (Maharashtra-India)

Performance of the institution in one area distinctive to its vision, priority and thrust

Ballarpur Institute of Technology has a vision of “Investing in Future” to bring its vision, we are committed to:

1. **Assembling a dynamic body of faculty who exemplify excellence and innovation :**
Faculty play a special role in determining the speed and direction of student’s progress, both directly through their lectures and indirectly through their training towards being a better citizen.
2. **Past studies establish that each of these efforts is strongly and positively influenced through various forms of faculty diversity, including ethnic, racial, and gender diversity. As an example, research shows that greater diversity within a community or group can lead to improved critical thinking and more creative solutions to complex tasks by pairing together individuals with unique skill sets.**
3. **We have Phd, Mtech, MBA, Btech from 12 varied universities who come from 5 different states bringing their own set of educational ethnic blend to develop students also changing the teaching methodology by encouraging the faculty to use power point presentation where ever required. Extensive use of online – content and other Video lectures to support the Class – room teaching.**
4. **Graduating students who are well educated in technical knowledge with solid communication teamwork skills: Along with technical knowledge, Communication teamwork skills help students in their study, career development, job interview, workplace and social networking.**
5. **Industries always complain about dearth of Industrial ready students in the market.**
6. **BIT undertakes various seminars workshops throughout the year in order to provide the students with an edge during their job interview.**

7. **All departments conduct separate workshops expert lecture along with seminars on communication, group discussion, presentation skills, motivation etc to achieve all round development of students.**
8. **Partnering with academic, industrial government entities: With students getting an all round development in college campus, the next aspect is to opening up the gates of industries for the students in less developed areas. Industry shares a symbiotic relationship. Academia produces graduates who are absorbed by industry. Research work in universities are taken up by the industry and turned into products and services. Industry on the other hand looks to academia for solutions to their concerns. To cater to this different MoU are signed with leading companies like Manikgarh Cements, Butibori Manufacturers association, Chandrapur Super Thermal Power Station and many others so as to provide the right exposure for internships, project finally in getting students placed in the field of their choice.**
