Welcome
to the
**World of
Engineering.**

Many of you may wonder, "what exactly is an engineer?" Engineers are creators, designers, innovators and problem-solvers.

Engineers play a role in the production and development of almost everything we use in our daily lives - from the CDs we play in our stereos to the chips that power our computers. Engineers helped man land on the moon and assist in the explorations of our oceans. Engineers design and build bridges and roads and set up the transportation systems that make them work. They also

develop new alternative fuels and means of harnessing energy.

Engineering is not just about facts and numbers. Engineering is about using your intelligence, education, training and capabilities to improve the quality of life for the people in our local community, our country and on our planet.

At BIT, in our **Diploma programme** we develop people and ideas that transform the challenges of the 21st century into opportunities to create value for industry and society.

We believe that industry can be and needs to be one of the strongest forces for value creation in an improved world. To develop people and ideas that can improve the world in the 21st century, BIT needs to not only impart knowledge but change mindsets.

We also want our students to realize the enormous business opportunities in India in the globalized world and explore new possibilities for what business can achieve.

The Ballarpur Institute of Technology (BIT) offers you an opportunity for a superior education in the engineering & management fields. BIT is managed by a great team of successful technocrats who have gained their engineering & MBA Diploma and degrees from reputed colleges and have worked on the forefront of contemporary technological developments. We will now work with you to put you on the ladder which takes you right to your dreams.

We at BIT appreciate your interest, and hope you will visit the campus in the near future.

Fees / Scholarships

Special Talent Scholarship

Students may have any score but must have a special talent to be eligible to receive this scholarship, which provides financial assistance upto 75% of the tuition fees. We are looking for students with very creative and innovative mindsets who have great ideas and passion for developing products/services for the local/regional community. These students will have to convince the management committee that they have extraordinary talent and thinking to make an impact on our society.

Fees as
approved by
State Government
Fees Authority

Govt. Scholarship available for eligible
SC, ST, VJNT, OBC, SBC candidates

About the Director & Message

Dr. Rajni Kant Director

Ph.D, IIT (ISM), Dhanbad
M.Tech. (Industrial Engineering)
B.E. (Mining Engineering)

Its one more new academic year filled with promise and opportunity. As the college director, I am thrilled to greet both returning students as well as those who are joining us for the first time. Our college is more than just a place of learning a vibrant community where ideas are exchanged, friendships are formed, and futures are shaped.

Each one of you bring a unique perspective and set of experiences to our campus, enriching our academic environment and contributing to the tapestry of our community. On your educational journey here, I encourage you to embrace the challenges and opportunities that lie ahead. Seize every chance to explore new subjects, engage in meaningful discussions, and pursue your passions. Whether you are studying in the humanities, sciences, arts, or any other field, remember that knowledge is a powerful tool that can transform lives and shape the world around us.

At our college, we are committed to providing you with the support and resources you need to succeed. From the dedicated faculty members who are experts in their fields to the comprehensive student services that are designed to meet your needs, we are here to help you reach your full potential. But remember, your success ultimately depends on your own efforts and determination. Take ownership of your education, set ambitious goals, and work hard to achieve them.

As you navigate the challenges and triumphs of college life, I encourage you to approach each day with curiosity, resilience, and a spirit of collaboration. Together, let us strive to create an inclusive and supportive community where every student can thrive and succeed

I wish you all a fulfilling and enriching academic year.

About the Principal & Message

Mr. S.S. Goje
Principal (Polytechnic)
M.Tech. (Embedded Systems)
B.E. (Electronics Engg.)
Ph.D. (AI) pursuing

MESSAGE FROM PRINCIPAL

As the Principal of our esteemed Polytechnic, it's my pleasure to address you at the beginning of this academic year. This is a time of new beginnings, fresh opportunities, and boundless potential. Each of you has chosen to pursue a path of technical and practical education, and I commend you for your commitment to excellence in your chosen field. Remember that you are embarking on a journey that will not only shape your future careers but also contribute to the advancement of society as a whole.

As you step into your classrooms and workshops, I urge you to approach your studies with passion, dedication, and a thirst for knowledge. Remember that every setback is an opportunity to learn and improve.

In the fast-paced world of technology and innovation, it's essential to stay curious, adaptable, and proactive.

Take advantage of the resources and facilities available to you, and don't hesitate to explore new ideas and concepts. Your time at our Polytechnic is not just about acquiring technical skills; it's about cultivating a mindset of innovation, problem-solving, and lifelong learning. But academic success is not the only measure of your time here. I encourage you to get involved in extracurricular activities, clubs, and community service initiatives. These experiences will not only enhance your personal and professional development but also foster meaningful connections with your peers and mentors. Newsletter is also acting as a medium to convey messages about vision and value along with future strategies. Finally, I want to remind you that your journey at our Polytechnic is just the beginning of a lifelong pursuit of excellence. Stay focused on your goals, believe in yourself, and never underestimate your potential to make a positive impact on the world. Last but not the least, I expect to get insight from its readers to improve and excel. My best wishes to you all!

Our Vision & Mission

VISION

To become an Institute that is recognized and respected as a leader in training and placement

MISSION

- M1-Empowering BITians to recognize, understand and capitalize on career opportunities by building strong Industry alliances
- M2-Developing their Technical, Aptitude, Communication and Leadership skills.

Our Placement Team

As the Training and Placement In-Charge at Ballarpur Institute of Technology, my role encompasses developing and implementing strategies to enhance student placements and strengthen industry-institute relations. I am responsible for organizing campus placement drives, internships, and training programs to equip students with technical and soft skills. Key activities include conducting pre-placement training, mock interviews, group discussions, aptitude tests, and career counseling sessions. I ensure smooth coordination of placement drives, manage Industry partnerships, and maintain placement data for continuous improvement. My goal is to achieve high placement records, foster student confidence, and position the institute as a preferred talent hub for recruiters.
